

# THINKING STARLINK? THINK THORNTON

**With nearly 100 Starlink systems installed, you can count on Thornton Aviation to get you connected.**

Thornton's team leads the way helping operators adopt Starlink technology and enjoy the unencumbered access to all things connectivity. No lags, no buffering, no issues – simply full global internet access.

## WHY STARLINK?

- Delivers high-speed, low latency internet anywhere across the globe\*
- All passengers can stream the internet at the same time
- Allows HD streaming, Zoom video calls and large file downloads in flight
- Low earth orbit greatly reduces latency and increases functionality

## WHY THORNTON AVIATION?

- Rapidly approaching 100 successful installations
- First to install Starlink on a Bombardier Global 5000
- First West Coast MRO to install Starlink on a Gulfstream 650
- Typical installation takes approximately 15 standard workdays

No matter what you fly or what cockpit and cabin solutions best fit your needs, Thornton Aviation has got you covered. Contact us at **(816) 288-3106** or **info@thorntonaviation.com** or visit **thorntonaviation.com**.
